**TOGETHER  
INFORMATION**

## Cloud-ready and Secure

Today's new hybrid work environment has permanently changed demands on access to information: it must be available anywhere and at anytime. Only then can an organisation maintain maximum efficiency and productivity. Yet information also needs to be secure.

Toshiba's cloud-ready products, combined with the support from our team of experts, provide the solutions you need to improve workflow and print with functionalities that are smarter and more convenient than ever before. We have implemented new features to increase productivity in line with the needs of hybrid workplaces. The e-STUDIO2520AC series is equipped with functionalities that enable non-contact, non-face-to-face, and remote work.

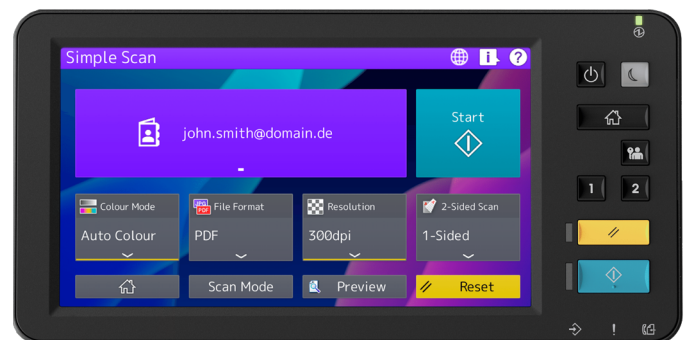

Based on the latest technological advances and security standards, we deliver end-to-end tailored solutions to help you seamlessly and securely navigate today's digital workplace. In addition, our multifunctional print (MFP) systems meet the highest environmental requirements. From consulting, cloud migration and fleet management to implementation and technical support, Toshiba is at your side.

Each of the models in the Toshiba e-STUDIO6528A series delivers high-quality monochrome documents precisely in line with the needs of medium- to large-sized workgroups. All six multifunctional systems are equipped with advanced security features you can rely on and performance that will enhance productivity.

- Advanced Toshiba e-BRIDGE Next controller technology ensures smooth integration and operation without compromising on document quality
- With a print speed of up to 65 pages per minute, exceptionally fast first-copy output and a paper capacity of up to 5,200 sheets, the e-STUDIO6528A series delivers reliable document output
- Designed to support and enhance document workflows and simplify complex multi-step processes

## Smart and Smooth

An intuitive 10.1" (26 cm) tablet-style touch screen with an embedded web browser is easy to use and fully customisable. You can conveniently tailor settings and automate workflows – including integration of third-party solutions. The user interface, which reflects the bold look of this e-STUDIO series, enables simple operation and improved efficiency.

# An All-Rounder for High Demands

Success in today's working world demands seamless access to data and information at all times, regardless of whether staff members are working remotely or on the go. The e-STUDIO6528A series easily integrates into cloud and mobile workflows. Thanks to the advanced e-BRIDGE Next controller technology, you can also seamlessly utilise third-party solutions.

The array of embedded apps is designed to address the individual requirements of each organisation, and gives the flexibility to connect to the cloud-based application of your choice.

## Your partner in sustainability

Toshiba is committed to people and the future of our planet. With the aim of building a sustainable society, we make every effort to minimise the impact of our business on the environment. Conservation and protection of the world's natural resources are top priorities in every business process and product. A key aspect of our approach is to provide solutions that make our customers' operations more sustainable. Accordingly, the e-STUDIO6528A series has also been equipped with a number of environmentally friendly features:

- Low-power, super sleep mode to save money and reduce energy consumption
- Compliance with the latest, most stringent environmental requirements
- The e-BRIDGE Plus for Green Information app, which displays environmental achievements directly on the MFP, encourages the use of eco-friendly settings

## Security meets convenience

As a leading provider of information technology, Toshiba has always placed top priority on protecting data. The e-STUDIO6528A series comes with robust security features, such as anti-malware function, secure Solid State Drive (SSD) and Trusted Platform Module (TPM) with encryption function. Optionally you can choose the FIPS HDD\* with data overwrite function and HCD-PP\*\* certification. Deploy all the security technologies offered to ensure your data are protected when using the MFP.

# Big Performance

Toshiba's e-STUDIO6528A series offers a wide spectrum of functionalities. The multifunctional systems enable you to integrate and simplify your workflows while improving efficiency.

**Mobile printing** gives you full flexibility and lets you easily connect to mobile devices via AirPrint on iOS/macOS® or the Mopria Print Service.

**Wi-Fi Direct** offers the option of on-demand connection. Coupled with the Toshiba e-BRIDGE Print & Capture app, the feature not only lets you print from but also scan to your mobile device.

**Remote assistance and diagnostics** fit seamlessly into today's working styles and help keep your business running when technical difficulties or uncertainties occur.

**Embedded Optical Character Recognition (OCR)** simplifies the creation of searchable PDFs and editable document formats such as Microsoft Word.

**Scan to USB** is great for working with documents on the go. You can even create PDF/A-2 files suitable for long-term archiving.

**Scan and fax preview** allows you to review, rotate and modify your scanned documents or incoming faxes before saving or printing them.

**Barcode printing** lets you send print data from your ERP system directly to the MFP. The barcode sequence is automatically processed and printed with no need for additional middleware.

**Customisable user interface (UI)** for your ideal user experience. A fully customisable, tilttable colour panel works like a tablet or smartphone interface, so you can find whatever you need with ease.

**Auto skew correction** for non-standard paper sizes ensures your scanned documents are created accurately – every time.

## Highlights

### Embedded apps

Each organisation has its own requirements for storing and sharing data. To make sure you can use the e-STUDIO6528A series MFPs as you wish, there are a wide selection of apps available that you can adapt to further enhance your efficiency. By using your choice of embedded and optional apps, you can create the workflow you need and the user experience you wish. Whether connecting to cloud services or local applications, we have the solution.

### Multi Station Print solution

Toshiba's proprietary Multi Station Print Solution allows users to send print jobs from their desktops and retrieve them at up to 50 different MFPs within the network by authenticating at their device, e. g. by simply swiping a badge.

### Dual Scan Document Feeder (DSDF) and Double Feed Detection

The DSDF option can hold up to 300 originals and processes 240 images per minute (ipm) by scanning both sides of the page in a single pass. With the addition of Double Feed Detection, you can ensure that no pages are missing after scanning.
